

**West Michigan
Environmental Action
Council**

WMEAC is a non-profit environmental advocacy and education organization committed to citizen empowerment.

We are the people—women, men, young people and retirees, families, professionals and students, hunters and anglers, sportsmen, executives, homemakers—with one thing in common: A desire to make a difference for our environmental and our children's future. WMEAC has been West Michigan's leading voice for environmental protection since 1968.

Dutton Community Garden is in partnership with WMEAC and the Greater Grand Rapids Food Systems Council.
